That we may know about our ancestors; that we may learn about each other in this large family; and that we may become friends, indeed, is this record gathered and printed.

With the deepest appreciation
Of our ancestors noble and true,
The present-day generations
Now give them the honor that is due.
And with diligence and affection
For the family that's living today,
These records have all been gathered
To treasure along the way.

And now may our children's children
All cherish the records as we
Who feel in our hearts its a privilege
A part of this family to be.
And so may we leave this message:
Will every one earnestly try
To faithfully keep and send their records
To compilers as the years go by.

PRELIMINARY NOTE

After the death of my Uncle Joseph Hyer, son of Christian Hyer, the records which he had gathered of the Hayer people and those published by Oliver Hayer in the booklet "What I Know About the Hayer Family," were given to me. In order to get the records up to date I put the families given in the Hayer book on family sheets and sent them to the respective families for corrections and additions. This book attempts to bring the records of the descendants of Andrew Hayer up to date as much as possible.

I wish to thank the following who have cooperated in this work: Walter E. Hayer, who gave consent to use anything needed from the Hayer booklet, Elizabeth (Bessie) Hayer Knutson, Audentia Hayer Kelley, Beatrice Constance, William Ethan Hayer, Percy Hayer, and all other members who have so willingly sent in their data, and to Elna Kemp Wallace and Lillian Budge Hartwell, typists.

I hope that all of you will cooperate in the correction of mistakes or omissions in this printing. When you have a birth, a marriage, or a death or any other information you think desirable, will you please send it to me, giving the date and the place, sc that I can continue to compile this information, and for supplements.

Mrs Annie Hyer Kemp (216) or son Harry H. Kemp

WHAT WE KNOW ABOUT THE HAYER (HYER) FAMILY

(Taken by permission from Oliver Hayer's book.)

We are unfortunate in that no effort has ever been made to commit to writing any historical data concerning our family. All that we know is what has come under our own observation and what has been handed down by tradition. We are, therefore, in possession of only a few facts.

Our ancestors, for many generations — how long no one seems to know — resided in Norway. They occupied the rural districts following agricultural pursuits, with the possible exception of serving in military duty.

It is a matter of regret that the date of the emigration from Norway, and many other facts connected therewith have not been preserved. All the information we have received is that the branch from which we descended left there in the early spring of 1842. The evident cause of their migration was to better their future conditions. Wages were low, taxes very high, and it was by the strictest economy and frugality that they were enabled to eke out a scanty subsistance. They had hoped to find conditions more to their liking in America. This, the southeast part of Norway had been their home for generations. The nearest town was Konksberg, located not a great distance from Christiania, the capital. Leaving their home, they traveled by land some distance, mostly on foot, and took ship from Larvik, Norway.

We can hardly realize with what heavy hearts they must have had as they moved out. They must say farewell to friends, relatives, and their native land, where for generations they had sojourned, and the remains of their forefathers were laid to rest, and try the unknown strange land far across the mighty deep. We can but admire the courage of those brave people who would dare to go forward in the face of such untoward conditions, and try the realities of life in the Western World. We, their descendants, should try to appreciate the advantages that have come to us by their wise and courageous undertaking.

A voyage across the Atlantic ocean at that time meant a great deal more than it does now in our day. Steam boats were unknown to them, and the slow sailing vessels were the only means of travel. This ship on which they sailed was old and heavily loaded with a cargo of iron. It surely looked like a hazardous understaking. But nothing daunted, they bravely stepped on board, set sail, and were headed for America. Their progress was very slow and tedious. They suffered much from seasickness, and to make matters worse, they ran short of water; each being limited to only a small portion daily of the stale, and slimy liquid, having been fourteen weeks on the same vessel.

It is not positively known where they landed on the American shore, but from the best information available we are of the opinion it was at New York. They then went up the Hudson River as far as Albany, where they changed to the Erie Canal, sailed over the Great Lakes, finally landing in Milwaukee, Wisconsin. This was their destination by water.

It was now September (1842), and it would be difficult for us to realize the relief that must have come to them after having been so long a time on the water.

About one year previous to their arrival, in 1841, two families from the same locality in Norway, and connected by some family tie had preceded them. It was only natural for them to desire to locate in the same vicinity. These earlier immigrants had gone some distance southwest from Milwaukee, and settled in what is now Rock County, Wisconsin. Our people finally located them, and were soon there.**

Strange were the sights and sounds that greeted them on every hand. No one could speak a word of the English language. For a time they were bewildered and confused. But a home the family must have. So, securing a small claim, a rude cabin of logs was soon constructed, and gradually they adjusted themselves to these new conditions.

The country being new, there was more or less sickness among them, and not a few died during the first twelve months after their arrival. There were many things with which to contend, sickness and poverty prevailing everywhere.

Up to this time they had been believers in the Lutheran doctrine. But sometime during the first winter after their arrival, a distant relative, in company with another man, came into their neighborhood preaching, and advocating the doctrine as held by the Church of Jesus Christ of Latter-day Saints, or as they were frequently called 'Mormons.' These elders, Ole Hayer, and Goodman Hougas, were quite successful in converting these newcomers to their theological ideas.

A story is told of the difficulties these elders encountered when they first came up from Illinois, which may be well to relate here. A report of their coming had preceded them. The Lutheran preacher, fearing these elders might have some influence on his members, ran ahead of the incoming elders, stopping at every house warning the inmates "Do not invite them in."

When Lars Hayer and his wife saw the elders coming up the road she was very much agitated. Ole Hayer. relative whom she had not seen in several years was coming. She felt she was not equal to the occasion, so as a last resort ran up stairs in the house. Mr. Hayer, when the elders rapped on the door, opened it and invited them in. She however, kept her ear to an opening in the floor, and listened. After the usual greetings, the elders began conversing on religious matters. Everything he said seemed so reasonable, his voice so natural, she said to herself, "What a fool I am, I shall go down and visit with them, too."

Most of these immigrants being young and willing workers, finally found employment among American neighbors. If they could secure eight dollars per month they were satisfied. During the summer months, some of them would go down into Illinois and make hay where they were able to receive a higher wage. Sometimes, however, it was difficult to obtain money, so they took cattle in its place.

After remaining in Wisconsin about three years, they gradually drifted down into Illinois. There were perhaps two factors for this change: The larger available prairie lands open to settlers, also the fact that three were a large branch of the new church organization to which they had recently attached themselves. Many of their descendants remain there yet, and there we shall leave them for the present. They are located in what was then known in those early days as the Fox River country, LaSalle county, Illinois. The Elefson's came to America from Norway about the same time the Hayers did.

Eleff Elefson married Ann Hayer, No. 16.
Julia Elefson married Oliver Hayer, No. 13.
Sarah Elefson married Hans Hayer, No. 14.
Ole Elefson and Oliver H. Elefson never married.

All had dark hair and gray-blue eyes; all were farmers most of their lives. The men were all about six feet tall.

No one remembers if the father Elefson came to this country or not. The mother was called Grandma Groe by her grandchildren as that was her Norwegian name, meaning Julia in English.

Julia married again to John Olson and he died several years before she did. She lived in LaSalle county, Miller Township, Illinois and was buried there in the Section Cemetery.

It will be noted that all Elefsons in this record are now part Hayer.

Julia Elefson Hayer has red hair as did many in the Elefson families.

In a History of the Scandinavians, by O. N. Nelson, he says, "Scandinavian have a strong individuality, courageous, stubbornness, firmness and determination but has also honest, truthful and hospitable qualities."

It seems too, the Hayer and Hyer people have a square jaw-bone and a square hand, which according to tradition means determination or executive ability. They are also blue eyed and have brown hair, except when the in-laws have black or red hair, which of course changes the offspring. The Roman nose, which a few of the Hayer offspring have, must come from the Olson side, because, "they say they have never seen a Roman nose in No. 3 descendants."

**Marion Berrum, daughter of Erick Berrum, and wife of Iver Sandberg, lives at Barrett, Minnesota. When Marion was 18 years old she walked through the cemetery at Stone Bank, Wisconsin, which was where her mother lived in her youth. After arriving at their place of residence, they were telling of seeing so many Hyer graves in the small cemetery. The father said, they were his own relatives.

Hans C. and Frank Hyer were her father's cousins on their mother's side. Marion is attempting to make connections with our Hayer families. Hans Christian and his brother Frank Hyer, went to Canada, and established the Norway House, at the north end of Lake Winnepeg, and died there old men and bachelors. They made a lot of money there in the fur trapping business which they were later swindled out of, but at the last illness, Hans C. sent for her brother, Gerhard Berrum, to come and take care of him, which he did. While there 3 months, Gerhard contracted a disease, which took his life one month afterwards in LaCross, Wisconsin. Frank Hyer died and was buried in Canade in 1921. Later Hans Christian had Frank's body sent back to Stone Bank for burial. Gerhard brought Hans' body to Stone Bank, Wisconsin, for burial. There were no records of other members of the family in St. Johns church. The sexton inquired of old people and found an aged grandson of the man who bought the Hayer farm; he had a B/S paper with the names of Christian Hoyer and Egedie on it. The 1850 and 1860 census of Waukesha county, Wisconsin was searched in Washington, D. C., and the following was found.

Christian Hoyer, b. in Norway (1850—age 28 died in Wis.; Egedie 1850—age 33) born in Norway, died in Wis.; Children: 1.—Annetta Hyer, (1850—age 3) 2.—Hans Hyer (1850—age 1;) 3.—Matilda Hyer, (1860—age 6); 4.—Alfred E. Hyer, (1860—age 5) — all born at Merton, Waskesha county, Wisconsin.

Yantz Hoyer, a farmer, (1850—age 23) b. in Norway; Dorothea Hoyer, (1850—age 22) b. in Norway. Children: 1.—Karen Hyer (1850 age 12) b. in Norway; 2.—Yetta Hyer, (1850—age 9) b. in Norway; 3.—Hans Christian Hyer (1850 age 6) b. in Wis.; 4.—John Hyer (1860 age 15) b. in Wis.; 5.—Frank (Ferdinand) Hyer (1860 age 7) b. in Wis. According to St. John church in Wisconsin records, Hans Christian Hyer died July 8, 1922, and Frank died March 20, 1921.

Christian Hayer: The birth of Christian Hayer could have been no later than 1770, and possibly earlier. Lars Hayer was born in 1784. Christian Hayer held some office in the regular army, and was noted to some extent for his athletic feats. Some of his 'stunts' have been related in our hearing.

One of his amusements when on his skates would be to come at right angles with a swift horse hitched to a sleigh, and jump between the horse and sleigh when at full speed.

In his younger days he worked as a tailor. In those days tailors as other tradesmen would go from house to house to do the work that was wanted. At one time he was employed at a minister's home. There were two young daughters at this home who were very anxious to attend a dance in the neighborhood, but feared their father would not let them go. Hayer encouraged them to go and they followed his suggestion without the consent of their parents.

As soon as the minister heard of their being at the dance, he started out to get them back. A few minutes after he left the house Christian went out, too. Taking a circuitous route he ran by the old gentleman and stationed himself on top of a sharp hill. As soon as he heard the old fleshy minister come puffing up the hill, began walking across the way on his hands, back and forth in the dark. The preacher would stop and look, take a step or two, and stop again. By and by, he turned and ran towards home as fast as he could. Christian flung himself over the cliff, took the same circuitous way back, and entered the house before the old man came in. When asked why he did not bring the girls, he replied, "Oh, I saw the Devil walking on his hands."

At a time when he was serving the army as an officer, one of the generals was inclined to be very cruel to the soldiers. The general had his office in a room upstairs, with a stairway leading up on the outside. Knowing the officer to be alone, he decided to go up and have a talk with him about his conduct with the soldiers. One word brought on another, finally the general became angry at conduct of the minor officer. The key being in the door, he jumped up and locked it, and then made for Christian. But somehow he miscalculated his man. He found the odds decidedly against him. After Christian had flogged him about enough, he began crying 'murder.' The people below heard the confusion, ran up the stairway only to find the door locked. When Christian heard them coming he flung the general on top, in the meantime calling 'murder.' The people burst in the door thinking it necessary to save a man's life. The two, of course, were parted. As soon as Hayer could get away, he went

before the proper officer and had the general arrested, the charge being that the general had locked the door, pounced upon him and beaten him. Of course, the general protested, and said that he was the one who had taken the beating. But the witnesses who burst in the door declared under oath that Hayer was under and the general on top. A fine was accordingly imposed on the general for his conduct.

We do not know the date of Christian Hayer's death, but it is said that he lived to be very old.

*16. Ann Hayer, b. 7 Aug. 1931; d. 12 Oct. 1910, Miller, Ill.

Lars Hayer was a man small in stature, but straight in form and very well proportioned. He stood not to exceed five and a half feet in height, and weighed about 150 pounds. He was not as noted a character as his brother, Christian, but was a man of very frugal habits. We can imagine it was no small undertaking for him to sell his holding in Norway, leave the land of his nativity, his many relatives, to say nothing of his scores of friends where he had lived about sixty years — all his life — and start anew in a foreign land under strange and adverse evironments. We can but admire the noble impulses of this man in thus sacrificing his own feelings for the good of his growing family. His noble wife, Ann Marie Olson, acquiesced in his decision and shared in the privations incident to such an undertaking. About two years after her death, in the spring of 1845, Lars Hayer left Wisconsin, with his youngest child, now about fourteen years, and thereafter made his home with his son, Hans. He died in April, 1863.

A hand-made silver spoon has been handed down to the youngest daughter in each Hayer family since 1705. It was brought to this country by Ann Olson Hayer. It is now (1953) in the possession of Pearl V. Anderson, daughter of Louisa Elefson Anderson. These initials are on the back of the spoon but the meaning is not known.

The father Austin Olson, died the winter following their arrival in this country. The weather was cold and the snow deep in Wisconsin that winter. The baby was sick; the parents watching it alternately. Although not well the father said, "Mother, lie down and rest; when I get tired I will call you." After sleeping some time she awakened and found him resting on the bed. Thinking this strange, she spoke to him, but receiving no answer she made further investigation only to find that he had passed away without a struggle. She called the little girls, the eldest being less than nine years of age,and had them watch at the foot of the bed while she waded in snow knee-deep in the dead of night to notify the nearest neighbors.

Struggling along as best she could to provide for her family, often working in the fields at 25 cents per day. After a few years she moved from Wisconsin and settled in Illinois. In 1847 she was again united in marriage with Andrew B. Anderson. Caroline died suddenly while calling on one of her neighbors.

10. Ole L. Hayer[4] (Lars[3], Andrew[2], Christian[1]).

10a. Martha Buland, b. 22 May 1822 in Norway; d. 12 Jan. 1891, at Miller; md. 1847.

*52. Elias Hayer, b. 13 Nov. 1848, Keokuk, Iowa; d. 6 Mar. 1923, Seneca, Illinois.

53. Samuel Hayer, b. 27 Jan. 1850; d. 2 Sept. 1922. He never married. He was a man of means, owning the old homestead, besides much money and credits.

54. Sarah Ann Hayer, b. 16 Nov. 1852, Marseilles, Ill.; d. 23 Mar. 1864.

55. Andrew Hayer, b. 15 Oct. 1855, Marseilles, Ill.; d. 23 Mar. 1864.

56. Isabel Hayer, b. 31 Oct. 1859, Marseilles, Ill.; d. Apr. 1913.

Ole L. Hayer was married shortly after his arrival in America but to whom we have no knowledge. They were the parents of one child who died in infancy and the mother died also. In 1847 he married Martha Buland. Shortly after he with his brother Austin moved to County, Iowa, not far from Keokuk where his oldest children were born. Concluding that Illinois was a better place in which to live, they returned to the rest of his family and remained there the balance of their lives. Ole was highly respected by all of his acquaintances. He was frugal, industrious, honorable in all his dealings with his fellowmen. He was a man of great energy, always a hard worker, leaving nothing undone which he thought needed attention. He was crippled in one of his limbs in later life, having suffered much from rhumatism. He never united with any church organization, but lived an upright, honest life, honored and respected by all of his neighbors.

11. Andrew Hayer[4] (Lars[3], Anderw[2], Christian[1]).

11a. Olena Midgorden, md. on board of a ship they both came over on. She died 1843.

11b. Ellen Danielson, b. 24 June 1946, d. 5 May 1925; md. 1845, Miller, Illinois.

Andrew's first marriage was unusual because it took place on board the ship and the captain treated the whole company to his best wine. Andrew died childless. He was a man of very decided opinions. He had many friends and of course some enemies. He was outspoken; if he did not like a man he very soon told him so. However, he was very benevolent, helpful, and kindhearted to those who were sick or were in need of assistance. When the Elders of the Church of Jesus Christ of Latter-day Saints had converted and baptized his brothers, Christian and Oliver, he, not knowing anything of their doctrine, declared he would kill the Elders on first sight. But after learning more of their claims he cooled down and after a time united with the order and never in after life would he listen to any other doctrine. He was an Elder and did some preaching. He is kindly remembered by many of the poorer people.

Caroline was a good cook and housekeeper. She was noted for being the first to have new straw hats. She braided the straw and made it into hats for all the family and in the fall she made the men their caps. She always prided herself on having the whitest front porch, which could be done by scrubbing the native lumber flooring with lye, which made the boards very white.

Christian Hyer says "We located ourselves in Misquite county, Wisconsin Territory, in the spring of 1843, when an elder of Israel by the name of Ola Olsen-Hayer, came into the neighborhood, preaching the gospel of the Son of God; and as I was convinced of the truth of the principles that he taught, I immediately embraced it, and was baptized the 23rd of June the same year. As there was no branch of the church there, I moved to LaSalle county, Illinois, where there was a branch.

"In the fall of '44, for the first time I beheld President Brigham Young, Heber C. Kimball, and Parley Pratt. In the month of February, 1846, I, in connection with others of the Church were called upon to come to Nauvoo, which we did, and there received our endowments in the Temple; and in the Seventies Hall, I was ordained a Seventy.

"In the spring of '49, I left my father's family in LaSalle county, Illinois, and came to Salt Lake City. We were seven wagons in company from the settlement, crossed the plains in company with Ezra T. Benson, and arrived in Salt Lake City, 25 Oct. 1849. Lived in the 6th ward in the old fort until the spring of '50, when I moved to North Canyon Ward, now called Bountiful."

A member of this company, by the name of Peterson speaks of Christian Hayer, sometimes called him Chris Hayer. There has been some controversy as to who dropped the "a" in the name; we believe Christian Hyer did this after he arrived in Utah. We also learn from another dairy that he played the violin while he was crossing the plains and even played for a wedding on the plains — something we did not know he could do.

Five years after his marriage, he was called on a mission for the Church of Jesus Christ of Latter-day Saints. He presided over the Scandinavian Saints and assisted them in preparing to cross the plains into Utah. He was given an honorable release in the spring of 1858. The following day he returned to his home and found his family all well. Upon hearing there was good land in Cache Valley, he and a few other families left for that place on 12 March 1860.

This account of the journey was taken from Marriner W. Merrill's diary: "M. W. Merrill, Christian Hyer, Edwin Pace, Goudy Hogan and others with comparatively little trouble except for cold, wet snow storms, dark nights and no chance for a fire some nights, finally reached Logan, where they found a few settlers and the Church herd of cattle between Wellsville and Logan. The next day they went on to Richmond. The land here seemed to be fairly taken up, so they moved on to High Creek expecting to explore that section. They finally concluded to settle where Cove now stands but when ready to move north, the head team of oxen, driven by Brother Merrill seemed by some instinct to be determined to go back south to Richmond, and there was no stopping them. Brother Merrill was asked by the other brethern why he went south instead of north as agreed upon. He said "My oxen were determined to go south and I could not change their course." The outcome of it was that land was provided and permanent homes were established in Richmond."

This is from heresay. At first, times were hard. And one time while grandfather was cutting his wild grass for hay, which had to be cut with sythes in those early days, he took off his jeans and hung them on the willows on the bank of Cherry Creek. But when he had his load of hay and ready to start home, he went for his breeches and they were gone — stolen by the Indians. He, in connection with M. W. Merrill and Wallace K. Burnham, built and owned the first flour mill that was erected in northern Utah, and is today one of the leading mills in the valley. He was, for a number of years, president of the Richmond Cooperative Mercantile Institution, and led an active life both in an ecclesiastical and civil capacity.

Taken from an account written by his son Joseph Hyer. "Father was a man of few words, but when he spoke his word was law. I do not mean by that he was overbearing, or harsh, for I believe there never was a kinder man to his family. He was never known to whip a child, and he had the love and confidence of his entire family, and indeed, all who had the pleasure of his acquaintance. He fulfilled to the very letter the injunction in the scriptures; "Never let thy right hand know what thy left hand doeth." It was a customary thing to see father on the eve of a holiday time, going the rounds of the city with a basket on his arm, visiting the poor and those who were in distress, and his name is held in reverence today by that class of people.

"Father, like all of the other early pioneers, had a hard struggle in conquering the elements, building bridges, and making the desert blossom as a rose, and though he never amassed great wealth he was what could be said of all of grandfather, Larse Hayer's sons, in comfortable circumstances. Spiritual things came first with father, temporal things came secondary. He was a great believer in the saying: "Seek first the kingdom of God, and its righteousness, and all other things shall be added unto you."

"Anyone, who was not acquainted with father, on reading the foregoing might think it sounds boastful, egotistical, and conceited, but it was said of him at his funeral service: "He was as good a man as it is possible to be and live in the flesh." He had his weaknesses as all men have them, but it can be truthfully said of him that the world is better for his having lived in it, and would surely receive the welcome plaudit, "Well done, thou good and faithful servant, enter into the joy of thy Lord."

Christian Hyer's descendants are mostly blue eyed, and have light or brown hair. They have square jaw-bone and a square hand, which indicates resourcefulness, stubborness, and executive ability. A few of his descendants have prominent upper front teeth, which we have traced to the Hogan side.

Christian was a Bishop's councilor, and one of his sons was a Bishop. Of his descendants there were three Stake Presidents, four Stake Councilors, five other Bishops and seven Bishop's Councilors as of (January, 1952.) More since that time.

Christian filled a mission for the Church of Jesus Christ of Latter-day Saints. Fifty-six of descendants spent an average of thirty-two months each in the mission field, laboring in various countries and the United States. With approximately $13,440 spent for transportation to the fields of labor, $100,428.50 for living expenses while there, making a total of $113,868.50.

As of June, 1950 he had 38 grandchildren, 231 great grandchildren and 356 great great grandchildren.

The war record of Christian Hyer's descendants is equally as brilliant: 38 have served on the battle fields in World Wars I and II; one flew 35 missions over Germany, and two made the supreme sacrifice.

Oliver, upon arriving in America at the age of twenty-two in company with his brothers secured employment among the neighbors. The wages, although low, seemed satisfactory to them, eight dollars per month. In his native land he had worked at the shoemaker's trade, but did not find it remunerative here, preferring to work on the farm. After two and a half years he married Julia Elefson. Oliver Hayer was frugal, industrious, energetic, and did very well considering the fact that at the early age of thirty-five he began to be afflicted with asthma and suffered greatly (two of his brothers and his mother also had it.) Months at a time he was unable to lie down, securing what little sleep he did have by sitting in a chair with his head resting upon a pillow before him on a table. He joined the Church of Jesus Christ of Latter-day Saints, 23 June 1843; but united with the Reorganized Church of the same order in 1860. Shortly after so uniting he was ordained a priest.

The mother (Julia Elefson) had red hair in her youth, but as she grew older it turned brown. Her sons Oliver and Eli, had red hair and all the children had a Roman nose except Lars, the oldest son. The

Roman nose comes from the Ann Olsen Hayer side because, "they say they have never seen a Roman nose in Christian Hayer's (3) descendants."

Being the youngest boy he had the advantage of his brothers in learning the English language. He held many positions of trust and was widely and favorably known. In politics he was a Republican; was a member of the Church of Jesus Christ of Later-day Saints in which he was ordained to the Aaronic priesthood.

He usually acted as chorister in their song services. He was generous and helpful, often sacrificing because of having too much confidence in his many friends. He resided on his farm in Miller Township, LaSalle County, Illinois until his death.

Shortly after coming to this country, he settled near Danway, LaSalle Co., Illinois, known as the Fox River settlement. Not long after his arrival he united with the Church of Jesus Christ of Latter-day Saints and advocated that doctrine until the death of Joseph and Hyrum Smith when the church broke up into several factions. He did not unite with any of them but later affiliated with the Baptists, and did some preaching in that order. Ole Hayer was called "Preacher Ole Hayer" to distinguish him from his second cousin Ole L. Hayer whom he converted along with other members of Ole L. Hayer's family in the winter of 1843. His real name was Ole Olson, but there being others by that name he decided to adopt his mother's maiden name and become known as Ole Hayer, and his descendants are known by that name. With a portion of his family he left Illinois in 1868 and located near Boone, Iowa, his wife having died some years previously. He was well educated for those times, and was a very good pen-man.

In 1870 she with her husband and family moved to Paris, Idaho where her husband presided over Bear Lake county for the Church. Her new home was a renovated blacksmith shop with a dirt floor; but it was kept orderly and amazingly clean. The average expense connected with Ann's confinement was $4.00. Six of her eight sons are doctors. In winters they usually had at least bread, molasses, milk, and some pork. In the winters the snow crusted over enough for the horses to walk on, and the lake froze so that it could be crossed. Sometimes the snow drifted over the house so that help from the outside was needed to open the door. In the latter part of her life she enjoyed the convenience of a modern home but still contended that she spent one of the happiest times of her life in the blacksmith shop home.

Andrew L. Hyer was the first white boy and the second child born in Richmond, Cache county, Utah. He grew to be 6 ft. 2 in. tall; had blue eyes and light brown hair. He was naturally left handed, but his school teacher would crack him so hard over the knuckles that he learned to write right handed and was a very good penman. He also had the art of whistling; it was so loud, strong and penetrating that the neighbors a mile away, could hear it early in the morning when the air was clear. This art carried through to his sons, John, Ira, Ralph, Ross and Merle. His granddaughters Wanda, Lucille and AnnJo, and grandsons, Ray, Howard, Clare, Wendell, Cleave, Andrew, Maurice and William, and a nephew Ariel could do this particular "whistle call."

When his first child was two years old, they moved over to what was called Poverty Flat, later known as Lewiston. In May of 1885, according to the custom of his church, he was asked by the authorities, to enter into plural marriage.

Soon afterwards, he left his two wives together, and accepted a "call" for a mission to Norway; later, due to ill health, he was sent to England to finish his mission.

When he returned home he had one cow and a lame horse. His first wife's brother, Albert a mere boy, helped to run the farm while he was gone. But the Lord soon blessed him and later on he owned 1300 acres of land, many horses and a large herd of dairy cows. At one time they milked over 100 cows.

He helped organize and direct the Sego Milk Plant, the first milk factory in Cache Valley, Utah. He was the main promoter of the Lewiston Bear Lake Pumping Plant and was a member of the Lewiston First Town Board of Lewiston in 1904.

He was Bishop of the Lewiston First Ward from 1905 to 1917. He has had one son serve his Church as Stake President, two sons as members of the Stake Presidency and two sons serve as Bishops of Wards. It is estimated that he and his family of eight sons and one daughter spent about 332 months or about 28 years in the missionary work for the Church, amounting to around $13,000. He also had two

granddaughters and one grandson spend six years; this reckoned at $35.00 per month would amount to $2,520 making a total of $15,520.00 spent for this service. Since this accounting two more granddaughters and several grandsons have served in the mission fields, at a much higher cost. They did missionary work in nine nations, namely, Norway, England, Sweden, Canada, Germany, South Africa, Society Islands, Mexico, Hawaiian Islands and in the United States.

At the time of Andrew Hyer's death, the President of the Benson Stake said, "Andrew has payed as much tithing as any three men in the Stake." He provided all his children with a good education. He not only looked after his own, but assisted many immigrants to the United States; to many of these he advanced means, or guaranteed their bonds without their having to give him a note with their signature. He felt that a person's word should be as good as his bond.

For his large family he provided two large homes. Each family had a light wagon called the "white top" and a small buggy. Later on, each family had a Studebacker automobile.

In the early days before the streets were lighted with electricity, Andrew's "whistle call" was a blessing in gathering his family together, after church meetings or an entertainment. When we heard the call, we knew where to go.

Forty-five years ago his second daughter was married and moved into Salt Lake City; transportation was slow and this was a long distance. Andrew called his family together and said that he wanted us as a family to meet together once each year, and renew our association and love. This request was carried out in family reunions. There has been as many as 190 present in various appointed places. These gatherings have helped us to more appreciate each other and our family relationships.

Andrew's untimely death at the age of only fifty-nine years, was caused from pyorrheac poison in his system.

He was always active in civic and church affairs. He gathered a lot of genealogy with the help of Oliver Hayer and his son Walter and Bessie Hayer Knutson. In March 1941 he was hit by an automobile and died a few days later. His genealogical records were turned over to the compiler of this book. He and his good wife were not blessed with children. Her hobbies included both horticulture and fancy work and she took prizes for her sewing at the St. Louis fair in years past.

Annie Hyer Kemp walked two miles to attend school. She attended only the first eight grades, as she was the eldest of fourteen children and her help was needed at home. When she was baptized in April 1889, it was necessary to cut a hole in the ice on Cub River, with an axe.

Before and after her marriage she worked in church and civic affairs. She has held many positions of responsibility; was President of the Relief Society for five years; a counselor in the Presidency of the Mutual Improvement Association for six years and a class leader in the Primary Association for thirty years. In civic affairs, she was on the beautification committee for improving the school grounds in North Logan, Utah. This took much time and effort, because it was said a lawn around a district school could not be done.

The lady who retyped the script for this book said, "that I did not have enough written about myself. Well I can add that I have surely enjoyed gathering these records and feel like I know each and every one of you.

I am very active for my age of seventy-three. Many people take me to be at least ten years younger than I am. I do a lot of walking, but I am learning to relax when my strength seems to be leaving me.

Three years ago I had the pleasure of going with a group of young Bee Hive girls and some of their mothers to Minnetonka Cave, which is forty miles through Logan Canyon and on to St. Charles, on the west shore of Bear Lake, in Idaho. The Cave is eight miles up the St. Charles canyon; from there we had to walk an incline of one-half mile to the mouth of the cave. The cave has twelve chambers, some larger than others, and it has 695 steel steps in it. Many of the chambers have stalactites and stalagmites in them and many other formations are there also. It shows where a river run through part of it at one time. There is a slight draft in it making the air very pure. They say if the wind is very hard on the outside, the draft will be so strong it will cause the door to the cave to close. Just recently on August 1, I had the pleasure of going through again.

My mother and her seventeen daughters have all served in the National Relief Society Organization. Together, we have spent 36 years as president, ten years as 1st councilor, six years as second councilor, 77 years as visiting teacher, 22 years as teacher topic leader, chorister for three years and organist for one year. One spent 5 years in the office as Stake President of Relief Society. This makes a total of 165 years service in this one organization. At the present time I (Annie Hyer Kemp) am spending my time compiling information for this book, and other information about my ancestors.

One day a week I devote to missionary work assisting people who come to our Genealogical Library, in their research problems.

The year I was in the eighth grade at school, mother did not have a hired girl, so many a time the wash water was heated ready to do the family wash which we did after walking home from school or a large ironing was to be done. In those days the water had to be pumped and carried in and put into wash boilers to heat, the washer and wringer had to be turned by hand as they did not have running water or electricity in the home. Some years at threshing time we had to cook three meals a day for the men it took to man the threshing machine and the two sets of headers it took to keep the thresher going. Some years this would last at least two weeks at a time, and one year we even had a set of hay men at the same time.

When haying in the lower fields, the breakfast had to be prepared and the dinner ready to send with them. Many a morning I have dressed with my eyes shut.

At this time and until after my marriage, there was no electricity and the milking had to be done by hand, and I have many a time milked as many as 12 cows at a milking. I never worked in the sugar beets, because the sugar factory was not started until after I was married.

When I was first married I lived in Logan, Utah, where my husband taught school at the Brigham Young College. When we had four children we decided that the city was no place to raise a family,

so we bought a small farm in North Logan, later adding to it. We finally added to our poultry business until we had 2,000 laying hens and brooded 3,000 chicks each year. We had a dairy herd, and a large orchard which made it a diversified farm.

I usually helped with the poultry, garden and had many flowers and shrubbery around a nice large home.

Oh I should say, I had my fun too. I loved to dance, play ball with the boys and the harder they played the better it suited me, even after I was married. I did fancy work and dress making.

There was a trait I liked very much about my grandfather, Christian Hyer. When the Sunday morning chores was done, he and the boys would dress for church, then study until Sunday School time. In that way there was no rushing to get ready. The shoes was shined on a Saturday.

I have blue eyes, brown hair, which is still brown. I am 5 ft. 4 in. tall and weigh 122 lbs.

LEO F. HAYER IS INVENTIVE GENIUS

"Necessity is the mother of invention" and to Lt. Leo F. Hayer in Italy necessity whets his genius. He has speeded up Army opera-

tions in the Signal Corps construction batallion in Italy as much as 50 percent. From experience gained with the Illinois Bell Telephone company and as an instructor of manual arts at Bradley, he devised equipment out of scraps to speed vital military work.

Five hundred feet of cable was being laid every ten minutes by four hundred men digging a 30-inch deep trench only wide enough for the cable. This was to continue for 12 miles. Then the homemade invention came into use and work progressed at the rate of 110 feet every 10 minutes with just a few men.

Next he devised from torpedo cases reels to unwind Army telephone lines that were kinking and causing slack in the wires when strung.

He has also made a combination radio-phonograph from a German tank loudspeaker powered by French radio works and equipped with parts from English salvage and the American Army air corps.

Lieutenant Hayer entered the service in the summer of 1942 by commission.

War I, for 4 years and while there he developed tuberculosis but he recovered and was released. In July he married, in Decmber 1947 he contracted lukemia and re-entered the hospital where he passed away.

It was through Bessie Hayer Knutson, that I found the descendants of Ole Hayer, Jr.. She was browsing through an old magazine which was three or four years old, of her brother Allen's. In it was the picture of William Leon Hayer taken of him in bed in the veteran's hospital in Minneapolis.

She sent the clipping to me saying "I don't know who he is. Do you want to write him?" I wrote him; he was very sick at that time. When his sister came he gave her the letter, and she sent me their father, William Ethan's address.

He worked very hard and got the records of his fathers, which included 34 families and 90 children. Then he located the addresses of his fathers one sister and his brothers (except Andrew). For this I wrote to Rockford, Illinois where it was thought his children were born. The postmaster sent my unsealed letter to Andrew's widow. She answered and sent me her entire family.

So Ole Hayer Senior's descendants are all in except a few of his son Benjamin's descendants. And we hope some day to secure theirs.

BLEST BE THE TIE

Blest be the tie that binds,
Our hearts in Christian love;
The fellowship of kindred minds
Is like to that above.

Before our Fathers throne;
We pour our ardent prayers;
Our fears our hopes, our aims are one,
Our comforts and our cares.

We share our mutual woes,
Our mutual burdens bear;
And often for each other flows
The sympathizing tear.

When we asunder part,
It gives us inward pain;
But we shall still be joined in heart,
And hope to meet again.

SERVICE PERSONNEL OF THE HAYER DESCENDENTS

TRIBUTE

Soldiers never die they live for ever
They who fought and lived, and they who fell.
In the conquest for right they faltered never
They leave a glorious victory for history to tell.

Soldiers never die their paths of glory
Shall always live that others might be free.
The paths they trod, the hardships they endured
Will live in memory down through eternity.

God bless this land and all united nations,
And ever bless the nations that we doubht
That truth and peace may reign in every nation
And friendship, live and right, might come about.
